Bernafon

THE SOUND EXPERIENCE

Why choose Bernafon?

At Bernafon, we believe great hearing care starts with you. That's why everything we do is designed to support your work, not complicate it. From durable hardware to intuitive software, from counselling tools to admin support.

6 reasons HCPs choose Bernafon

Because broken speaker units should be the last thing on your mind

We prioritise durability and reliability in every speaker unit, push button, and charger we make.

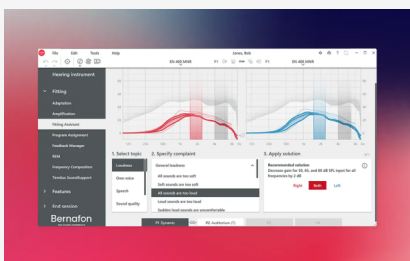

Because client acceptance starts with the first fit

We amplify sound differently, preserving natural speech patterns for clearer, more natural sound.

Because you'd prefer to spend your time counselling instead of selling

With four clear technology levels to match different needs, lifestyles and budgets. It turns selling into a conversation.

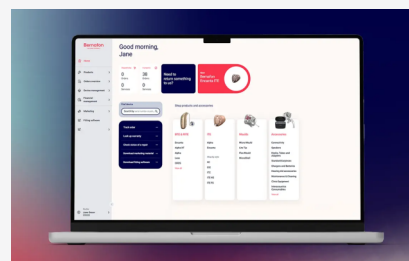

Because fitting software should just work the way you want it to

With Oasis^{NXT} fitting software you get what you expect, so you can navigate with confidence.

Because your clients feel motivated when they're empowered

Our person-centred tools support you and your clients from the first appointment to ongoing care.

Because you'd rather spend time with your clients than on admin

We provide support that simplifies your workload – so you can spend more time on what matters most.

Oasis^{next} 25.1 release note

The new version of Oasis^{next} supports the following new features:

Spoken Notification: This update expands the range of audible indicators that can be selected as spoken notifications. Now, spoken notifications include Shutdown, Program Change, Service Mode, and Battery Warnings (both pre-warnings at different levels and out-of-battery alerts). The overall usability of the Indicators screen has also been improved.

Feedback Manager: Feedback Manager is now available during Remote Fitting sessions. The measurement process is identical to the in-clinic process, with the only difference being the absence of background noise level indicator.

Accessories

Our selection of hearing aid accessories helps you get the best experience from your hearing aids and ensures they fit smoothly into your everyday life.

TV-A (TV adapter)

19,990.00

Send the sound from your TV directly into your hearing aids with our wireless TV Adapter. It's easy and quick to set up, and you can pair it an unlimited number of Bernafon hearing aids.

SoundClip-A

19,990.00

Make your hearing aids into a wireless stereo headset with SoundClip-A and enjoy hands-free phone conversations. You can also lend this versatile accessory to another person and transmit their voice to your hearing aids – ideal for very noisy situations. What's more, SoundClip-A can remotely control your hearing aids, enabling you to adjust the volume and answer incoming calls.

Easy LE Adapter

7,990.00

If you use Bernafon Encanta hearing aids, then you can benefit from the latest Bluetooth® technology, called Bluetooth LE Audio, with the Easy LE Adapter. Just plug it in to your USB-C enabled Android™ phone, tablet or your computer, and enjoy phone calls, streamed music, video chats and more – with confidence, comfort, and ease.

Bernafon desk charger (Encanta)

11,990.00

Bernafon Encanta hearing aids come with a new charger that provides all-day peace of mind by giving you a full day's charge in only 60 minutes.

Charger

8,490.00

Fully recharge your hearing aids while you sleep with our robust “plug & play” charger. This sleek and compact device can sit unobtrusively on any surface, and uses contactless inductive charging technology for ease of use. Simply seat your rechargeable Bernafon hearing aids in the charging ports, and they'll be fully powered again in up to 3.5 hours.

Charger Plus miniRITE (Encanta)

17,990.00

Enjoy convenient charging of your Encanta hearing aids when you're on the go. Perfect for a weekend away, Charger Plus lets you travel light and keeps your hearing aids powered up and protected.

Charger +

16,990.00

Travel light when you head away from home with our portable and handy Charger Plus. Designed to easily fit all rechargeable Bernafon hearing aids, this innovative device is both a charger and a tough carrycase that protects your hearing aids while you're on the go. A built-in powerbank gives you three full charging cycles for two hearing aids without the need for a power supply.

CROS/BiCROS

34,990.00

For people with single-sided deafness, these devices work together with an ordinary hearing aid. CROS/BiCROS hearing aids sit on the ear that can't hear at all, where they capture sound and then send it to the ordinary hearing aid on the other ear.

Our History

Bernafon, a Swiss hearing aid pioneer since 1946, began as a telephone company expanding into amplification devices. Founded by Hans Gfeller Jr., it introduced Switzerland's first hearing instrument, the A1 2-Pack, for Gfeller's father. Over decades, Bernafon has marked milestones like the world's first digitally programmable hearing aid (PHOX, 1988) and innovative ChannelFree™ signal processing (Symbio, 2002). Its DECS™ platform launched in 2017, ensuring cutting-edge technology. Now part of the Demant Group since 1995, Bernafon operates in 70+ countries, blending Swiss precision with global reach to enhance lives through advanced hearing solutions.
